Who Pays?

- Only U.S. resident C-Corporations
 - C-Corporations: Larger businesses, profits accrue to the corporation, 100+ shareholders
- Corporate income tax is paid on the net income of a C-Corporation

Who Does Not Pay?

- Pass-Throughs: Profits get “passed through” to owners who pay on their own personal income taxes
 - S-Corporations and LLCs: usually smaller business, profits are dispersed to smaller number of shareholders
 - Sole Proprietors: Profits go to a single owner as their own income

Personal Income Tax, Corporate Income Tax, and The Six Principles of a High-Quality Tax System

Six Principles

1. Sustainability/Reliability
2. Fairness
3. Simplicity
4. Economic Competitiveness
5. Tax Neutrality
6. Accountability

Six Principles & Income Taxes

1. Sustainability/Reliability

- Sustainability - The income taxes are known to be more volatile
 - Individual and business income can be impacted by general economic conditions
 - Greater progressivity in tax code could mean greater volatility
- Reliability
 - Aging population and a shrinking working age population; retirees have lower incomes
 - Greater income inequality = greater share of tax receipts from a smaller number of high-income filers
 - Linkages to the Federal Tax Code
 - Economic cycles impact the tax base

Six Principles & Income Taxes

2. Fairness

- Vermont's Income Taxes are progressive = promotes Vertical Equity
 - High income taxpayers pay a larger portion of their income
- According to ITEP, the PIT is one of the most progressive in the country

3. Simplicity

- Removing Deductions, Credits, and Exemptions would make the code simpler, but maybe at the expense of fairness
- Complexity from several different areas
 - Definitions/calculation of income – what is in, what is out?
 - Rate Schedule – should certain income be taxed at different rates?
 - Defining Nexus and navigating legal complexities

Six Principles & Income Taxes

4. Economic Competitiveness

- Complexity of incomes tax makes it difficult to compare across states
 - Rates, definitions, and brackets are different
 - In general, Vermont has lower effective rates than most of New England, but the effective rates increase steeply after \$100,000

Six Principles & Income Taxes

5. Tax Neutrality

- Vermont includes some incentives through the PIT and CIT codes to promote certain behaviors
 - Investment/Savings: capital gains exclusion, investment and research and development tax credit, 529 tax credit
 - Charitable tax credit
 - Limited to 5% on the first \$20,000 of donations – different from the Federal deduction

Six Principles & Income Taxes

6. Accountability

- Vermont Tax Expenditure Report published every 2 years
 - This year's will be out on January 17th
 - Aside from the personal exemption and standard deduction, Vermont had 24 income tax expenditures that cost \$77.8 Million in 2020
 - There are 14 corporate tax expenditures
 - R&D Credit is the only reportable amount due to suppression requirements - \$2.89 Million in 2021
 - Of note, in Act 138 of 2022 the General Assembly passed the Child Tax Credit estimated to cost \$32 Million
 - Other costs: CDCC, Student Loan, Military Retirement, Social Security are another \$8+ Million

FY2020 Personal Income Tax Expenditures: \$77.8 million

(note: does not contain VT Standard Deduction or Personal Exemptions)
